

# Britannica School has a new look!

As the most comprehensive, up-to-date digital informational text for K-12 students across the globe, the newly designed Britannica School will be sure to enhance your learning experience. Integrated with Google Classroom, Clever, and other classroom solutions and over 100K articles, Britannica School supports K-12 students with both in-class and distance learning.

Britannica School provides educators and students with:

Differentiated reading levels

The ability to create resource bundles

Trusted content to support classroom lessons

Optimal support for blended learning environments

The World Atlas and other culturally responsive content
